Healthcare Operational Excellence Executive Sector Meeting

Operational Efficiency | Organizational Transformation | Leadership Excellence

Why Attend?

Maximize Your Time

The Healthcare Operational Excellence Executive Sector Meeting is designed specifically for senior executives for whom time is a limited and important resource.

The unique format allows each participant to create their own customized itinerary, focused only on relevant issues and topics. This guarantees that participants are able to take away the information they need to meet their current goals and concerns.

By beginning the event on Sunday afternoon and ending at lunchtime on Tuesday, we limit time out of the office to a maximum of two days, including travel.

Find Solutions and Get Proven Results

The focus over these two days is on identifying and deeply exploring strategies and tactics that have proven to be effective. The Healthcare Operational Excellence Executive Sector Meeting puts you in close contact with executives from similar organizations to your own, many of whom have implemented - or chosen not to implement - strategies that you're currently evaluating.

This allows you to leverage the wisdom of your direct peers, getting candid insights on best practices and common pitfalls - the sort of information that is seldom available publicly.

Reliable and Actionable Information Developed by Senior Healthcare Executives

We provide unbiased content developed by other senior healthcare executives. We do not accept sponsorship dollars to allow vendors to speak on our platform in any capacity. Solution providers are represented only at the most senior level and in very small numbers. Furthermore, they are not permitted to attend any of the closed-door discussion sessions.

Intimate and High-Level Networking to Create Strategic and Long-Term Relationships

All executives selected to attend the Meeting must meet specific qualifying criteria. To optimize networking opportunities and your ability to build meaningful new relationships, we intentionally cap attendance at 60. Peer-to-peer interactions consist of small group sessions, think tanks, and one-on-one meetings.

“The opportunity to discuss current issues and real solutions was great.”

LISA ELLIS, COO
Oklahoma State University Medical Center

“The Think Tank model was very, very powerful for me personally.”

BRUCE CLEMENT, COO
Slidell Memorial Hospital

For speaking and participation opportunities, please contact:
